Subject: RE: meeting with Hull

Hi Jim,

I believe that we agreed at our meeting on March 17 that Hull would send me a revised draft of the proposed CMOM order by March 31. Please provide an update on when I will get this.

Thanks, Dave

Hi Jim,

In summarizing our meeting this morning to the EPA attorney, Jeff Kopf, I mentioned the CREAT work that you are working on. He observed that we have included language regarding system resilience in other recent orders and drafted a brief reference to it that is included as paragraph IV. 9. in the revised draft (attached). As you will see, we are asking the Town to add appropriate details regarding the specific measures that the town is planning to implement. I also took this opportunity to revise the submission dates, per our discussion this morning.

Please feel free to call me to discuss any of these changes.

Thanks, again, for your time on this.

Dave

Subject: meeting with Hull

Good morning Dave,

Just a follow-up on our meeting next week at Hull Town Hall, from the Town of Hull, we will have myself, Frank Cavaleri (Woodard & Curran, our plant operator), Mike Schrader (Tighe & Bond, our engineer), Mike Cunningham (Kleinfelder, our engineer), Phil Lemnios (Hull Town Manger) and John Struzziery (Chairman, Hull Permanent Sewer Commission).

Would it be ok if I invited Dave Burns as well since he is so familiar with our operations and history, he would be a valuable and insightful source for our issues?

Thank you and thank you for working with us on this.

Regards.

Jim Dow, Chief Facility Manager
Hull Water Pollution Control Facility
